REVISE RESTRICTIONS ON UTILIZATION OF ELECTRIC POWER

Because of a seasonal change in the maximum night capacity of hydroelectric power plants, the "Energoobedinenie" (Power Association) informs the Bulgarian population of the following changes in the utilization of power in Bulgaria, effective 21 October 1951: Private homes with odd numbers are forbidden to use power for household needs between 0700 and 1000 hours and between 1530 and 1730 hours; even numbers between 1000 and 1300 hours and between 1730 and 1930 hours.

Power for motors of combing machines may be used between 1200 and 1730 hours and between 2200 and 0600 hours.

All enterprises working one shift, with the exception of those under the Ministries of Light Industry, Heavy Industry, and Supply and Food Industry, may use power for electric motors between 0900 and 1730 hours instead of between 1100 and 1930 hours, which was the practice until now. Enterprises under the above ministries may use power between 0800 and 0800 and 1600 hours.

All enterprises working on two shifts, as well as shops designed for three shifts but actually working on two shifts only, may use power between 0900 and 1730 hours and between 2200 and 0600 hours instead of between 1100 and 1930 hours and between 2200 and 0600 hours, which was the practice until now.

Enterprises working on three shifts must stop operating the following machines between 1730 and 1930 hours instead of between 2000 and 2200 hours, which was the practice until now; woodworking machines, mixers, compressors of cooling installations, and grinders trimmers? of printing shops.
